

## Engraving Machines 1325DS

**Model No :** Engraving Machines 1325DS

**Product Name :** CNC Engraver

**FOB Port :** NINGBO PORT

**Payment terms:** T/T, L/C or negotiate

**Contact Person :** Ms.Suaad Fan

**Delivery Lead Time :** 7-20days

**View PDF file :**  Engraving Machines 1325DS

**View Word file :**  Engraving Machines 1325DS

### The Detail Description of Engraving Machines 1325DS :

Advanced DSP digit-control system, handle operation and large liquid crystal display brings out more convenient operation, simpler maintenance and much more human nature on the design of the machine.

Unique intelligent calculation fully develops the potential of the electric machinery and leads to high speed processing, the synchronization of curves and straight lines, smoother curves and race speed at 50m/min

Unique and dynamic renewal of the system enables the customer, according to different processing requirements, to change the controlling ability of the system and therefore, effectively improves the processing efficiency (Please start the operation with the instructions of the technical staff from the factory or agent)

Large internal memory capacity of 32M is able to store 30 processing files simultaneously and open and process any of them

Connection with the computer via USB interface enables data to be transmitted in a second, supports hot plug and play, no driver installation required(Window98/NT/2000/XP)

More compatible: It is compatible with such CAD/CAM software like Type3/Artcam/Castmate/Proe/UG/Artcut etc.,.

Excellent two-bolt pole made in Germany and slideways made in Japan or Korea

The spindle with high power and frequency conversion enables the machine to cut plexiglass of 20-30mm thick in one cut and process and manufacture advertising mode plates, presents and architectural wood models

It is able to go on engraving when the electricity is cut or the tool is broken.

Technical Specifications

Website : [www.nbmec.com](http://www.nbmec.com) , [www.signmaker.cn](http://www.signmaker.cn)

Type:	1325DS
Working Area:	2900*1320mm
Travel of Engraving:	2500*1300*120mm(Z Clearance of 200mm is optional)
Maximum Speed:	12000mm/min
Engraving Spindle	Inverter 2200W
Rotational Speed of Spindle	6000-24000rpm
Manner of Receiving Data	USB interface
Capacity of Floppy Disk	No
Memory	32M
Format of Instructions	G code or HPGL
Cutter	3.175or6.00
Power Supply	AC220/50-60HZ
Electric Power	1200W
Weight	750Kg
